New London, Ct., June 5--75 passengers, including a number of women and children, were rescued today from the steamship Northland which was driven ashore on Bartlett's reef, six miles southwest of here in a gale last night while on her way from New York to Portland, Maine.

The passengers were rescued by the tug Tasso, which had been summoned via wireless after the Northland struck. Five holes were torn in the stranded vessel's hull by the rocks and five of her compartments were quickly flooded.

As soon as all the passengers were brought ashore they were forwarded to their destination by rail.

Capt. Johnson and members of the crew refused to leave the steamer despite the heavy seas which were dashing against her.

As soon as the Northland struck her wireless operator sent out an S. O. S. call asking that a rescue be sent to her as quickly as possible.

The passengers awakened by the jar hurried on deck. With thoughts of the Empress of Ireland disaster still fresh in the public's mind the officers feared a panic would ensue but the passengers behaved with unexpected calmness.

The point where the Northland was wrecked is known as The Race and is the narrowest part of Long Island Sound.

# "LITTLE RHODY" SCOWLS AT LAWYER'S ARGUMENT

Chicago, Ill., June 5--Homer Rhodheaver, the raven-haired court leader for Evangelist Billy Sunday, scowled and pined the courtroom nervously when counsel for Miss Georgia W. Jay, the pretty blonde, suing him for \$50,000 breach of promise, bitterly denounced him in his arguments to the jury.

Rhodheaver held Miss Jay in his arms and hugged and kissed her, said Attorney Herron. "His conversations were of wedding rings and pin money, and yet he says he was not engaged to her. If he was not engaged to her and took these liberties, then he is a trifler and a degenerate."

The closing arguments in the trial were begun today, the defense having rested on Rhodheaver's testimony that he did not propose to Miss Jay during a taxi-cab ride. He said he merely took her home in a taxi because she was sick.

The case will go to the jury Saturday.

## JUDGE THOMAS TO PRESIDE IN BEARD TRIAL

Ironton, O., June 5--Judge James S. Thomas, of Portsmouth, has been asked by Judge E. E. Corn, to sit in the trial of Harley Beard, the youth who has pleaded guilty to slaying three members of the Massie family. Although Beard has pleaded guilty to murder in the first degree the court must hear evidence before passing sentence. He can either send the man to prison for life or pass the death sentence.

Beard was brought before Judge Corn Friday afternoon and formally arraigned, being represented by Attorney P. C. Booth. Judge Corn stated that owing to the fact that he was distantly related to the Massie family, who were victims of Beard's wrath, it would not be becoming for him to sit in the case. Accordingly he designated Judge Thomas to act in his stead, and fixed the trial date for Monday, June 15, at one o'clock.

ing to the people on the outside of the footlights. There is a charm and fascination about them that differentiates them from any other class of people in the world. They are always heroes and heroines to the outside. They live in a world apart, a fairy place, a dream country, where all the lovely, most desired things happen, just as they ought to in a perfect fairy tale.

But in reality, these delightful people are very human. They live and feel just as anybody else; indeed, if anything else, they are keener and more sensitive to the joys and sorrows in real life because of having lived and felt them in the play.

Mr. Regan's Casino players are fast proving to Portsmouth folks how really and truly human they are. They are making friends right along, not only because of the artistic work they are doing, but because of their charming personalities and the knowledge they have of the big stars in their profession. The members of the company are always glad to know and meet any of the town people to whom they are playing. Makes it more interesting, they say, to play to folks they know than to a sea of strange faces with never a familiar one in it. You will be amazed and delighted.

They want the Portsmouth folks to call on them.

The present play, "The Old, Old Story," will have three more performances, tonight and tomorrow matinee and night. Next week gives way to "The Lost Treasure," an exciting four-act dramatization of Sir A. Conan Doyle's "The Sign of the Four." This is one of the best of the Sherlock Holmes stories. The play was written by Graham Earle, stage director of the company. Beginning next week matinee will be on Thursday instead of Saturday. Dancing after every matinee.

Today's program at the Scenic is one you should not fail to see. "Where There's a Will, There's a Way" is a lively comedy drama, featuring Ethel Grandin and Horace. ## Schumann-Heink Gets Interesting

(Chicago, June 5. "When this case is finished I will have shown to the world that I am a good woman," said Madame Schumann-Heink, the opera singer, as she entered Judge Sullivan's court room today prepared for any development that might arise during the second day of her trial for divorce from her husband, William Rapp, Jr.

"Mr. Rapp is resorting to methods that I did not think possible in a man who pretends to be an honorable gentleman," she said.

"I know that public opinion is against me," said Rapp a short time later. "I know that the world scoffs at a man who will oppose a suit for divorce, but my own good name is as dear to me as hers is to her and that is what I am fighting for. No one so far has suspected what I have endured, but now the time has come for me to vindicate myself. What must I be wrongly judged stupid because I am a man? I propose to tell the public the truth and will shatter rudely an ideal a motherhood that has been regarded broadcast for many years."

Madame Schumann-Heink is not that ideal mother.

A mysterious secret in the life of Mme. Schumann-Heink with her husband, William Rapp, referred in a letter to the maiden was not buried at today's session in her suit for divorce. A big crowd was laid braced to learn, expecting to hear it was unacquainted.

The deposition of Benjamin Maples, a New York private detective, was read into the re-

## Picking Up Money

Using these columns is pretty much like picking up money on the streets. Walking is small effort, you wear out a little, do leather, the money you pick up is clear gain, if you can't find the owner.

So it is little effort to telephone your "want" to this paper, your carrier will collect the little cost—only 25 cents a word each insertion—and the little ad is altogether likely to get for you what you want.

## TREMPER A CANDIDATE FOR STATE SENATOR

Announcement was made Friday that Dr. William D. Tremper, prominent dentist and business man of Portsmouth, would be a candidate for the Republican nomination for state senator from this district, comprising the counties of Adams, Pike, Scioto and Jackson. Nomination petitions were put in circulation Friday afternoon.

It is learned that Dr. Tremper has had the question of his candidacy under consideration for several days, having been urged to make the race by a large number of political friends, who believed that the Republican nomination for senator should come from this county and that Dr. Tremper was the logical man for the place.

The matter came as a surprise to Dr. Tremper and he asked for a few days to give it consideration. Friday, it is stated, he decided to make the race.

Dr. Tremper is one of the best known and most popular citizens of Portsmouth and he has an acquaintance extending over Southern Ohio. Possessing the qualifications for the office to which he aspires he will make a formidable candidate. His friends here are confident that he will be nominated in the coming primary and that he will give good account of himself in the subsequent campaign.

The district is normally Republican by about 1,000 but for the past four years has been represented by J. L. Hudson, Democrat, who won each time by decisive majorities. At present there is one other Republican candidate, a Mr. Schreiber, of Manchester. Three Democratic aspirants are in the field—Ex-Sheriff Turner of Jackson county, W. P. Haynes of Jackson county, and C. M. Emory of Pike county.

## Damage Case Taken From The Jury

Early Friday afternoon Judge St. John took the case of the personal injury case of Stephen Stone against the Portsmouth Street Railway and Light Company to return a verdict of no damages, the court sustaining the motion of the defendant company's attorney to arrest the case from the jury on the grounds that the contributory negligence on the part of the company has been proven and that the evidence was not in keeping with the allegations contained in the petition. The case was begun in common pleas court Friday morning.

In his petition, Stone, who lives at 1000 Broadway, Ky., claimed that he sustained injuries of permanent nature as a result of being pushed off a street car at Kendall avenue and Fifth street, by a conductor of the street car, on January 19th, 1913. He stated that his left leg was severely cut and bruised, his left shoulder strained and painfully injured, and that he sustained numerous cuts and bruises upon his head, forehead, face and chin, all of which rendered him unconscious for about three hours after the accident.

When placed on the stand Friday morning, Stone testified that the conductor merely slapped him on the shoulder and told him that the car was moving his stop. Dr. J. M. Stratton, of Vancouver, Ky., who attended Stone after the accident, also testified as to the extent of the victim's injuries.

When the plaintiff's attorney had finished his case, Judge John C. White, for the defendant company, argued a motion to direct a verdict for his client on the grounds that the evidence was not in keeping with the allegations contained in the petition.

Attorney N. B. Gilliland, of this city, and R. D. Wilson, of Vancouver, represented Stone, while Mr. C. M. Miller and Scott, of this city, were the attorneys for the street car company.

## Pool Game Prices Will Be Advanced

A change in rates for the use of their tables will be put into effect by the pool-room owners of Portsmouth next Monday.

The pool-room men will charge 5 cents per cue as at present, but will allow but 2 1/2 cents per check, or just half as much as they have been giving. In other words it will require two checks to buy a glass of beer or sandwich or cigar instead of one, as under the present arrangement.

The pool men are making the change, they say, because they have not been enjoying any profits. The only money made is on the articles purchased with checks, and this they claim has been very slight.

### Had Narrow Escape

Prompt action by John White, a young New Boston lad, probably saved David Kraft, a blind man, also from New Boston, from being ground to pieces beneath the wheels of an east bound street car near the corner of Second and Chillicothe streets, about three o'clock Friday afternoon. The blind man was on his way to police station to ask permission from Chief Howland to play his banjo on the streets of this city, and was crossing Second street behind a west bound car, which had just passed. He did not note the approach of a car from the opposite direction, and would have been seriously injured had not him luck just in time.

Chief Howland gave him permission to play his musical instrument for the balance of the afternoon.

## INJURED IN RUNAWAY

Ben Brown and two daughters, Charlotte and Georgia, of Miller's Run, about four miles back of Leesville, were thrown from their buggy while on their way home from Leesville, Thursday afternoon. The horse became scared at an automobile and made a bolt, turning the buggy over and throwing the occupants under it. The two little girls escaped injury outside of a few minor scratches but their father was not as lucky. Mr. Brown, who held to the reins was dragged from underneath the buggy and sustained a bad gash over his right eye, had one ear almost torn off and several bruises about the neck, head and shoulders. He was resting easy late Friday. The horse stopped after running about 100 yards.

Ohio River Is Well  
Provided For In The  
Sundry Civil Bill

Washington, June 5.—More than \$4,000,000 is carried in the sundry civil bill reported to the house from the committee on appropriations for prosecuting the work on the lock and dam system of the Ohio river that already has been inaugurated and is going on under the continuous contract system. Under the act of 1910, which provides for the construction of a number of locks and dams below Pittsburgh, the sum of \$1,976,000 is appropriated for expenditure in the fiscal year 1915; the total original authorized sum for this feature of the work was \$3,000,000, and \$1,024,000 has already been appropriated and expended.

Under the act of 1912, which provides for the complete canalization of the river, \$2,200,000 is appropriated in today's bill, making an aggregate of \$4,176,000 for expenditure in 1915. This, however, is in addition to the new appropriation carried in the river and harbor bill, which has already passed the house and is now pending in the senate.

This measure authorizes the secretary of war to enter into contracts for new work on the canalization project not to exceed \$3,000,000, of which \$2,000,000 is

made available for expenditure in 1915.

This brings the aggregate sum that may be expended in the 12-month period beginning July 1, next, up to \$6,176,000, with \$1,000,000 more authorized. For the benefit of people who do not recall the difference between appropriations in the sundry civil and river and harbor bills, it may be said that the appropriations in the sundry civil bill are under authorizations in providing river and harbor bills; the latter measures always make provision for the new work, but authorize the expenditure of a larger sum than is usually made immediately available.

This year's river and harbor bill also appropriates \$250,000 for open-channel work in the Ohio.

Exchanged  
Property

## Falls From Bicycle And Leg Is Broken

James Kelly, of 1607 Eleventh street, employed as porter at the Barr and Minnery saloon, had the misfortune to fall from his bicycle at Third and Gay streets about 10:30 o'clock Thursday evening, sustaining a fracture of the right leg below the knee in the fall. He was removed to Hempstead hospital, where City Physician Wendelken reduced the fracture. He was reported as resting easy at the hospital Friday morning, but his injury will keep him laid up for several weeks.

Kelly was on his way home off the street railway tracks, throwing him in the ground with great force. He is a former shoe-worker, unmarried, and lives with relatives at 1607 Eleventh street.

## Attention! Neighbors

The Royal Neighbors, at their annual meeting, decided to join with the Modern Woodmen of America in the observance of Memorial Day Sunday afternoon.

Accordingly, all members are urged to assemble at the Lincoln street entrance to the cemetery at 1:30 o'clock, standard time, Sunday afternoon, and to bring flowers.

**Forecast**  
Unsettled over upper Ohio valley tonight and Saturday. River will rise slowly.

H. C. DONNALEY,  
River Observer.

The letting out of pool water from the government dam has caused a slight swell in the Ohio river here, the marks showing 6.7 feet and rising Friday morning. The raising of all the wickets at dams on the great Kana river has caused the Ohio to fall sharply at Point Pleasant, W. Va.

Saturday's packet departures: Greyhound for Huntington at 3 p. m.; Klondike for Rome at 2 p. m.

Cincinnati, O., June 5.—Commodore P. A. Ladd left yesterday for his ranch in Florida, where he will spend the next few weeks.

The towboat George Matheson No. 2 ran aground Tuesday night with her tow of empty coal barges at Coney Island dikes. Harbor towboat Fred Hall was sent to her assistance and succeeded in pulling the towboat and all of her barges off, and the Matheson proceeded on up the river enroute to Kanawha river.

Pittsburgh, Pa., June 5.—Three local river men—Captains Holmes Harger, Jr., and J. M. Hudson, pilots, and Engineer Harold Saunders—will depart tomorrow for Houston, Texas, and go from there to Galveston to take a steamer from that point to Tampico, Mexico. They will be employed on the former local towboat Volanteer, operating out from Tampico, on the Patuxent river, towing oil for an American company.

The Lorena arrived in the local harbor Thursday afternoon with a cargo of miscellaneous freight from Cincinnati and other Ohio river points. Slight changes were reported at few points along the three rivers today and these were generally slight increases. The rivers had fallen to such a low stage that nearly all the towboats are tied up at points along the upper Ohio river. The packets, aided by the raising of the wickets at the dams along the rivers, are enabled to operate with ease and are running almost on schedule time.

**At Last You Can Get Rid of Blood Troubles**  
The word Medicine is one of the most abused in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known medicine S. S. S. This famous blood purifier contains medicinal compounds that are vital and essential to healthy blood and the consequent health of the body. It is the reason that makes up our daily ration.

## Intake Tunnel Is Apparently O. K.

Inspection of the intake tunnel at the new water works plant was made Thursday afternoon by Chief Sanitary-Hydraulic Engineer Shute, City Engineer Wilhelm and Resident Engineer Withers. The inspections by the different engineers were made separately, and so far as their observations went, nothing was found to indicate that that part of the plant's equipment would be faulty. Small leaks were found here and there, but not of sufficient size to interfere with the operation. However, it will require a real operating test to determine that.

To make the inspections, the engineers were compelled to crawl through the tunnel, through alternating hot and cold water, and their experiences were anything but pleasing. Everything is in readiness now to attach the pumps to the tunnel, when the plant is ready to begin operation, which, the officials say, will be about July 15th.

# WORK ON C. & O. BRIDGE WILL BE STARTED SOON

## JULY FIRST IS THE PROBABLE DATE SAYS PRESIDENT OF ROAD

Active work on the C. & O. bridge across the Ohio river in this vicinity will be started most probably July 1st, and not later than August 1st, according to M. J. Caples, the newly elected president of the Chesapeake & Ohio Northern Railway Company, who was here Friday morning.

"We expect to decide definitely upon a route within the next few days," said Mr. Caples explaining that this was one of the main objects of his visit in this section Friday when he was accompanied by Harry Frazer, consulting engineer of the C. & O. railway, and Edwin Michael, chief engineer of the Hocking Valley railway. They put in the day inspecting the two routes between the river and Waverly.

### Want Most Economical Way

"The main thing to be considered is the physical side of a proposition like this. The one big item with us is how to get our trains to the lakes by the easiest grade and shortest route or in brief the best way for hauling our trains," added Mr. Caples. Asked who it was really up to for a decision upon a route, and

bridge site he admitted it was entrusted to him to fix the exact location of the bridge and the line to Columbus, he having been placed in entire charge of the construction of the new road.

### Two Propositions About Alike

"I never saw two propositions so nearly alike," said Mr. Caples in speaking of the two final routes now under consideration. "Each has its certain advantages but it will cost considerably more money to get through Portsmouth than to cross the Ohio at Sciotoville. The length of a bridge above Sciotoville is 3250 feet or six-tenths of a mile less than the one proposed for here where we will have to cross a wider valley and run overhead across the N. & W. tracks to the hills.

### Two Bridges Required

"Then too, over the Portsmouth route we are required to build two bridges across the Scioto, one at Davis Station and the other at Higby's and the almost constant danger of wash-outs, floods, etc., are to be reckoned with. The Sciotoville route will require no bridges once we are on the Ohio side. We will strike the N. & W. about where the D. T. & I. runs into Waverly and follow the east bank of the Scioto into Columbus, passing around Chillicothe. The grades of both routes are the same and it will be possible for us to run our heavy trains as well over one as the other. Another item favoring the Sciotoville route is the fact that the line is 3 and 2-10 miles shorter from the river to Columbus than the Portsmouth route."

Mr. Caples said that bids on the grading of the road to Columbus would be asked for within the next two weeks and bids on the bridge within the next three weeks. He said the grading work should be completed in 18 months and the bridge should be finished by May, 1916. The edge on the Portsmouth route

### Anticipates No Trouble

Mr. Caples does not anticipate any trouble in securing the War department's permission for bridging the Ohio at Sciotoville on account of the bend in the river there for at the exact place where the site for a bridge is fixed the river runs straight for something over a half mile and the bridge would not interfere with navigation in the slightest.

It is plain from the conversation with Mr. Caples that while months and the bridge should be the Sciotoville route now has the edge on the Portsmouth route.

that the chances for the city securing the bridge are still fair. If it is shown that rights of way can be secured at reasonable figures the bridge will be built here.

It would seem that the future development of the Tygart Valley should prove an important factor in the future plans of the C. & O. This more than all else should influence the C. & O. to locate its bridge at Portsmouth.

Light Suite at Blankmeyer's, The Tailor, 609 Chillicothe. adv. 34

## FAMOUS TENOR HERE SUNDAY

The coming of Leon Rice, the eminent New York tenor, to Portsmouth for several sacred solos to be given at the Bigelow M. E. church on Sunday night, June 7, is an event in musical circles not to be duplicated in importance soon. It is seldom an artist of international reputation, such as Mr. Rice, can be induced to appear in the smaller cities, and at church services.

Portsmouth lovers of high class music are delighted that circumstances have arisen that this talented artist is permitted to stop over here enroute on his Pacific coast tour. Our people can enjoy his famous "Evening of Song" which has charmed more than two million hearers during his concert tours embracing over two thousand appearances in England, Canada and America. Many of our citizens who have visited New York will remember Leon Rice as the famous tenor soloist of Trinity Chapel, where music journals credited him with being the highest salaried church singer in America.

### On Inspection Trip

George Brooks, division superintendent of the C. & O. S. W. railway, was here from Chillicothe on an inspection visit Thursday.

### Returns to Portsmouth

Will Alherson has given up his position as relief agent of the N. & W. at Trenton and returned to Portsmouth.

## SURVEYORS HERE TO GO OVER PINE CREEK ROUTE FOR NEW LINE

With a view of determining definitely the virtues of the Little Scioto route as compared with the route through Portsmouth, four expert engineers arrived here Friday from the East and will make a survey of the C. & O.'s proposed route up what is known as Pine Creek and Little Scioto. The engineers will complete their task before Saturday afternoon.

President M. J. Caples, accompanied by Attorneys Henry T. and Arthur H. Bannan went over the proposed route from this city to Lucasville Thursday afternoon and last night they went

## BOY SCOUT NEWS

### Patrol Leads In Session

The Patrol Leaders Association held what was considered by many of the members as the best meeting since organization at the First Presbyterian church last night. The following new officers were formally installed: Harry Wagner, president; Harold Shaw, vice; president; Corwin Knowles, secretary; Russell Williams, treasurer.

A very interesting feature of the evening's program was an account of what each troop contemplated doing during the warm months. Scout Commissioner Kinsey then introduced the speaker of the evening, Prof. D. P. Pratt, whose subject was "Some Civil War Reminiscences." Prof. Pratt's address was extremely interesting and held the attention of the boys for nearly an hour. At the conclusion of his address, the Patrol Leaders gave him a ringing vote of thanks.

This is the last meeting of the Association until September 1st, as it is their custom to hold no meetings during the warm months.

## Joy Riders Hurt In Auto Accident

A party of about ten young men and women "joy-riders" from Huntington, W. Va., came to grief when they tried to run over a building in the city of Portsmouth. The car, a 1913 Ford, was driven by one of the party, and it was overturned when it struck a building. The driver and several passengers were injured, and the car was completely wrecked. The accident occurred on Thursday night, and the injured parties were taken to the hospital.

Columbus, June 5—Saturday is "Rooster Day," and all over the state thousands of monarchs of the barnyard will suffer decapitation. During the evening season, the rooster is of no utilitarian value. In fact, he is more of a nuisance than anything else, and an expensive one at that, because he causes fertilization of eggs, and in that state the eggs spoil. By proclamation of the state agricultural commission, Saturday was designated as the day of decapitation for the chandelier, and from all reports there will be a general observance of it. During the laying period the hens should be undisturbed. Rooster day is in the interest of the non-fertile egg. The wholesale decapitation of the rooster will cause no irreparable loss to the poultry kingdom. The young roosters hatched in the spring will take up the sovereignty of the barnyard and there will be no danger of the species becoming extinct. Rooster day is something of an innovation, but it is destined to become a permanent and regular feature.

Under the new judicial constitutional amendment affidavits of prejudice are filed with the chief justice of the supreme court when it is desired to disqualify a common pleas judge from sitting in a case. Since Chief Justice Hugh L. Nichols has been in office seven such cases have been called to his attention. Instead of passing upon the cases from the affidavits, he has adopted the policy of going to each county from which the complaint comes and personally hearing evidence to determine whether the charge of prejudice is well founded. He has conducted seven such hearings and in each case he has sustained the position of the judge. This week he went to Morrow county to hear arguments on an affidavit of prejudice filed to prevent Judge Edwin Mansfield from hearing the first degree murder case of the state against John C. Morrow, charged with killing a babe so that he could elope with his mother. Because the supreme court is a court of last resort and ordered a new trial for Morrow, the latter's attorney contended Mansfield should not hear the case again. The chief justice promptly ruled that Mansfield should not hear the case again. The chief justice promptly ruled that Mansfield should again sit in the case.

The Ohio wheat crop for this year gives promise of being large. This is indicated by the June report of the state agricultural commission, made public today. The prospect is placed at 100 per cent of an average.

Whether the unspoken invitation

idea. They already have selected a separate state ticket, and before they will consider the idea of amalgamation, they will wait for the coming of Theodore Roosevelt and to see what he may have to say on the prohibition question.

Automobile instead of horse-drawn funerals and cremation of the dead instead of earth burial, are among the many "modernisms" that seem to find favor with many undertakers attending the third annual convention of the Ohio Undertakers' & Embalmers' Association. Dr. E. F. McCampbell, executive officer of the Ohio State Board of Health, advocated cremation in his address to the convention. He declared that cremation was "a step in advance"; that earth burial was "abhorrent"; and that the process of burning was the one and only sanitary method of disposing of the dead. The speaker attacked particularly the use of mausemums, the principal attack of the old-fashioned horse-drawn funeral was made by E. F. Woodall, an undertaker of Covington, Ky. He declared that the old system was "slow" for funerals and he advocated the funeral procession that moves to the cemetery with whizzing autos.

On the ground that hundreds of orphans are being reared under improper influences, the child welfare department of the board of state charities and corrections is asking public aid in finding better home surroundings for the child delinquents. Ministers of the gospel this week are appealed to particularly by the state department. One thousand letters have been sent broadcast to the ministers asking them to look about for families that might offer good homes for the homeless waifs.

# COMMENCEMENT OF THE HOLY REDEEMER SCHOOLS IS A SPLENDID SUCCESS

The fifteenth annual commencement of the Holy Redeemer parochial school was held in the Grand Opera House Thursday evening. Always an interesting and picturesque event it was more so than ever this year which was evidenced by the fact that more than 100 women were forced to sit in the gallery to witness the exercises. The theatre held its capacity and the 1914 graduation exercises of the Holy Redeemer church will always be recalled as being among the best ever held by this educational institution.

The exercises are always the crowning event of a singularly successful school year and mark the advent of the graduating class into the commercial life of the city. It is the fitting culmination of a long and arduous school career. It is the one big day in the scholastic life of every student and the exercises held at the Grand Thursday night by the

Holy Redeemer school were in keeping with the excellent reputation this temple of learning has earned through many years of hard work and conscientious endeavor.

When the curtain went up at the Grand it revealed as pretty a stage picture as any artist's pen could paint. The sweet girl graduates were of course the center of attraction. Attired in white dresses, embellished with red bows and with ribbon bows of the same gay hue in their hair and wearing white slippers, they presented an attractive appearance.

A note of simplicity was sounded in their graduation dresses, but this did not detract from their appearance. No previous group of girls has ever been on the stage of the Grand. Happiness was pictured in their faces and as they made their initial bow they were greeted by much applause. Over on one end sat Edgar Lyons, the Grand Thursday night by the

class. He wore a white flannel suit and just melted into the scene of picturesqueness. The stage was beautifully decorated for the auspicious occasion, there being many potted plants, exquisitely shaded globes and flowers of all descriptions being used with fine effect. From a decorative standpoint the exercises could not have been excelled.

The first number on the program was an ensemble number by the class, "Lovely June." It was rendered in a pleasing manner, the voices of the graduates blending admirably.

Edgar L. McNamara then delivered the only essay of the evening. He used the class motto as his theme, "Be Ye Leaders." Edgar, with the bearing and dignity of a schooled orator, plunged into his subject as if he knew what he was going to talk about and was not frightened by the immense audience. His essay was a real gem and he acquitted himself most nobly. He has a fine speaking voice, a good delivery and sincerity rang from his words. His essay was away from the beaten path and was delivered in faultless style.

At the conclusion of this essay the conferring of diplomas was made by Rev. J. E. McGuirk, beloved pastor of the Holy Redeemer church. As Father McGuirk advanced to the center of the stage he was greeted by a wave of applause, which he graciously acknowledged.

Diplomas were given to the following list of graduates: Helen Marie Barlow, Helen Margaret Buckout, Emma Elizabeth Duggan, Louise Caroline Emmott, Lilian Marie Gillen, Ethel May Kirsch, Dorothy Catherine Molengraff, Edgar Lyons, McNamara, Ruth Barbara Miskhead, Gertrude Marie Russell, Catherine Henrietta Scherer, Stella Marie Wagner, Myrtle Elizabeth Williams, Margaret Collins Young.

The class motto was "Be Ye Leaders," class flower, Carnation and class colors, Red and White. Suspended from in front of the stage in huge letters of red and white was the class motto "Be Ye Leaders."

After the diplomas were passed around Rev. J. E. McGuirk announced the award of gold medals to the graduates of the business department. Those who wrote 55 words a minute in the stenographic department were: Stella Wagner, Edward McNamara, Katherine Scherer, Ethel Kirsch, Helen Buckout and Gertrude Russell.

The speaker of the evening, Rev. Francis J. Finn of the St. Xavier's College of Cincinnati, was then introduced. Father Finn has for many years been identified with parochial school work and is perhaps one of the best known Catholic priests in America. At present he has six year old pupils under his care.

Father Finn gave a brief review of what the Catholic schools were doing in America and what they have planned to do. He stated that during his career he has raised more than \$150,000 for parochial school work.

In his address he took occasion to warn the parents that when a child goes to his first communion this should not be interpreted that his schooling has been completed. "It is a grave mistake to take a boy or girl 11 or 15 years old out of school and put them to work just because they have received the sacraments. Catholic parents should guard against this," the speaker said in a most emphatic way.

Father Finn is a writer of great ability, having written quite a number of books for Catholic boys and girls.

The closing number of the program was a recitation "Smiling the Rock" by the graduating class. It was quite a novelty and the members recited the piece in almost perfect unison and with commendable enunciation.

"Little Red Riding Hood," a cantata in two acts, closed the evening's festivities. It was handsomely staged and afforded the pupils of Holy Redeemer an opportunity to display their vocal ability and their excellent diction.

"Dolly Stop Weeping" by the primary pupils; "Better Be Good" by primary pupils, and "An Affair of the Big Ben Moon" by Mary McMahon, and a reading by Catherine Scherer and a drill by the grade pupils, featured the cantata.

The work of the grade boys was especially noteworthy. They drilled with the accuracy and precision of Endeavour's regulars and were liberally applauded. Dressed in sailor suits and all of about the same size they simply captivated the audience. They went through various forms of routine sports and with great rhythm. It was a distinct feature.

The pupils were schooled and drilled by Sister John, assisted by Sisters Agatha, Lamslaus, Jean, Benita and Delphine, who labored untiringly to make the cantata the delightful success it was.

Persuade of the Cantata: Little Red Riding Hood, Frances Schroeder; Her Mother, Matilda Schroeder; The Wolf, Frances Cassidy; Grandmother, Mary Stokes; Queen of the Fairies, Mary Foster; The Prince, Howard Browning; Fairies, Grade Pupils; Villagers, College Students; The Fairy, Grade Pupils.

Sacralities: "Dolly Stop Weeping" Primary Pupils; "Better Be Good," Primary Pupils; "An Affair of the Big Ben Moon," Mary McMahon; "Deed and Song," Grade Pupils; Reading, Catherine Scherer; Accompanist, Mrs. Frank Koley.

No more successful graduation exercises were ever held in the Grand. Everything passed off smoothly and the successful nights it attained reflects credit upon Rev. J. E. McGuirk and the good Sisters who are responsible for the success of the commencement.
